Welcome to BENALU ! Thanks to 50 years past experience within the transport of bulk products, our daily objective is to support our customers in a continuous improvement mode.

Quality of the design, weight reduction and product optimisation are our DNA to fulfill the customer requirements. Our whole range of semi-trailers is fully designed and manufactured in France.

We are delighted to introduce you to our range of semi-trailers and invite you to follow us onto our internet website www.benalu.com and our **Facebook page benalu** to know our latest news.

AN OUTSTANDING TECHNOLOGY !

ALUMINIUM TIPPER FROM 25 UP TO 35 M³

- **Double skin profile** : Tipper aestheticism maintained, internal impacts not visible from outside
- **Thickness gradient** : Longevity improvement : Goods concentrated in the most impacted places
- **aluminium chassis** : Robust and suitable for uneven grounds.
- **Rear bumper** : Ultra compact, polyvalent which can easily be used with finisher

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Insulation system
- Longitudinal cover sheet on cable or side rolling with manual or electrical control
- Unlimited colors and customization
- Back doors according to your needs
- Many profile thicknesses (floor and side walls)
- ...

Have a look at our numerous options on www.benalu.com

Type : **Tipper**

Chassis : **Aluminium**

Body : **Aluminium**

Goods : **Sand, asphalt, earth, mud, gravel, ...**

Useful length : **From 7,5m up to 9,20m**

Useful height : **From 1,40m up to 1,56m**

Weight : **From 4750 kg**

**INNOVATION
BENALU**

Type : **Tipper**

Chassis : **Steel**

Body : **steel**

Goods : **Rip-off, earth and demolition**

Useful length : **From 7,75m**

Useful height : **From 1,40m up to 1,55m**

Weight : **From 7400 KG**

THE ALLIANCE BETWEEN DESIGN AND ROBUSTNESS!

STEEL TIPPER FROM 24 UP TO 27 M³

- **Faceted Body HB 500** : Curved side walls body with ribbed foldings
- **Various thicknesses** : From 8 up to 10 mm for the side walls and from 8 up to 12 mm for the floor
- **Aluminium straight chassis** : High Elastic Limit : Robustness suitable to any utilization

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Longitudinal cover sheet
- Unlimited choice of colors and customization
- Back doors according to your needs
- Various profile thicknesses (8/10 mm)
- Faceted body HB 500
- Various thicknesses
- Steel straight chassis
- ...

Have a look at our numerous options on www.benalu.com

Type : Tipper

Chassis : Steel

Body : Steel

Goods : Sand, asphalt, earth, mud, gravel

Useful length : 7,50 m

Useful height : From 1,30 m up to 1,55m

Weight : From 7800 kg

THE SEMI-TRAILER SUITABLE FOR DIFFICULT ACCESSES ! STEEL TIPPER WITH HORIZONTAL EJECTION FROM 19 UP TO 23 M³

**INNOVATION
BENNES MARREL**

- **Patented CITEF bulkhead** : Hydraulic ram with horizontal ejection for loading on difficult areas
- **Patented Half-spherical body** : Side walls and floor in one piece for optimized unloading
- **Steel straight chassis** : Robust and suitable for uneven grounds
- **Hydraulic back door** with locking devices for aperture and closure
- **Double effect ram** with anti-knick landing legs

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Insulation system
- Hydraulic longitudinal cover sheet
- Unlimited choice of colors and customizations
- Remote control of the full mechanism (door, bumpers, hydraulic ram)
- ...

Have a look at our numerous options on www.benalu.com

AN OUTSTANDING TECHNOLOGY ! BODY ON TRUCK TAILOR MADE

- **Double skin profile** : Tipper aestheticism maintained, internal impacts not visible from outside
- **Thickness gradient** : Increased longevity : Goods concentrated in the most impacted places
- **Aluminium sub-frame** : Fixed onto the truck chassis

OPTIONS STUDIED FOR AN OPTIMIZED UTILIZATION !

- Insulation system
- Longitudinal cover sheet on cable or side rolling with manual or electrical control
- Unlimited colors and customizations
- Back doors according to your needs
- Many profile thicknesses (floor and side walls)

Type : **Body on truck**

Sub-frame : **Aluminium**

Body : **Aluminium**

Goods : **Sand, asphalt, earth, mud, gravels, ...**

Useful length : **According to the truck capacity**

Useful height : **According to the truck capacity**

A COMPLETE RANGE OF STEEL BODIES ON RIGID TRUCKS!

INOVATION, ROBUSTNESS ET SECURITY ARE OUR KEY WORDS

Our steel body range on rigid trucks equipment is available on our website www.bennesmarrel.com, page construction !

Type : Tipper

Chassis : Aluminium

Body : Aluminium

Goods : Agricultural products, fertilizers, small stones, sand

Useful length : From 9,70 m up to 11,50m

Useful height : From 1,90m up to 2,30 m

Weight : From 5500 kg

INNOVATION
BENALU

Type : Tipper

Chassis : Aluminium

Body : Aluminium

Goods : Agricultural products, fertilizers,
small and middle scrap, quartering,
small stones, sand ...

Useful length : From 9,7 m up to 11,50m

Useful height : From 1,85m up to 2,20m

Weight : From 5300 kg

BULKLINER WITH RIBBED SIDE WALLS ! ALUMINIUM TIPPER FROM 43 UP TO 61 M³

- **Ribbed body** : Minimized deformation risk
- **Step-frame chassis** for an optimized volume and a better stability
- **Lightest possible weight** on the market for this type of vehicle!
- **Integral flow** : Internal width of 2410 mm with any type of door

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Floor protection sheet for sticky products on front straight wall (patented FR2976532)
- EASYTARP™ electrical or lateral cover sheet system
- Special devices for quartering
- Back doors as per your needs
- Various profile thicknesses
- ...

THE HIGHLY VERSATILE VEHICLE FOR AGRICULTURE ! ALUMINIUM TIPPER FROM 43 UP TO 89 M³

- **Multipurpose vehicle** : Internal body angles designed for the transport of pallets (up to 33)
- **Optimized useful width** : 2480 mm suitable for euro pallets transport
- Side walls with various thicknesses to meet with your loading expectations
- **Aluminium step-frame chassis** for optimized volume and better stability

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Floor protection sheet for sticky products on front straight wall (patented FR2976532)
- Side rolling cover sheet or EASYTARP™ electrical cover sheet system
- Unlimited colors and customizing
- Back doors according to your needs
- Many profile thicknesses
- ...

Have a look at our numerous options on www.benalu.com

Type : Tipper

Chassis : Aluminium

Body : Aluminium

Goods : Agricultural products, Euro pallets, fertilizers, big bags, large steel profiles

Useful length : From 9,5 m up to 13,30m

Useful height : From 1,85m up to 2,40m

Weight : From 5700 kg

Type : Tipper

Chassis : Aluminium

Body : Aluminium

Goods : Agricultural products,
fertilizers, sand, earth, ...

Usefull lenght : From 8,80m up to 9,50m

Usefull height : From 1,70m up to 2,20m

Weight : From 5200kg

POLYVALENCY, LIGHTNESS AND ROBUSTNESS ! ALUMINIUM TIPPER FROM 36 UP TO 50 M³

- **Polyvalent tipper** for agricultural and public works
- **Aluminium chassis** : Robust and suitable for uneven grounds
- **Ribbed body or smooth sides** according to your needs
- **Integral flow** : Internal width of 2410 mm with any type of door (except hydraulic door)

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Sloped front wall with or without ram dog house
- Side rolling cover sheet or EASYTARP™ electrical cover sheet system
- Unlimited colors and customizing
- Back doors according to your needs
- Many profile thicknesses
- ...

Type : **Mobile floor**
 Chassis : **Aluminium**
 Body : **Aluminium**
 Goods : **Agricultural products, Euro paletts, big bags, plants**
 Useful length : **13,45 m**
 Weight : **From 6900 kg**

VERSATILITY WITH HORIZONTAL UNLOADING OPERATION !
 ALUMINIUM WALKING FLOOR UP TO 96 M³

- **Walking Floor with unequalled pay load**
- Higher safety thanks to the unloading operation without tipping
- **Side walls** with various thicknesses to meet your loading requirements
- **Self-carrying chassis** : 100% aluminium
- **Trapezoidal body** for an optimized volume
- **Outstanding design** thanks to excellent finish

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Smooth or corrugated floor profile with various thicknesses
- Butterfly cover sheet, side rolling or EASYTARP™
- A great choice of colors and customization
- Standard or hydraulic back door
- Progressivity of the side wall thicknesses over the length
- ...

BENALU**

JUMBOLINER

Type : **Compact Mobile floor**

Chassis : **Aluminium**

Body : **Aluminium**

Goods : **Agricultural products,
euro pallets, big bags, plants**

Useful length : **10 m**

Weight : **From 6600 kg**

Hydraulic door version (in option)

THE COMPACT MOBILE FLOOR ! ALUMINIUM MOBILE FLOOR FROM 57 M³

- **Compact vehicle** to get access to the most difficult areas
- **Side walls** with various thicknesses to meet your loading requirements
- **Full chassis** 100% aluminium for higher robustness
- **Special floor** for specific transport of compost, fertilizers or plant waste

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Smooth or ribbed floor profile with various thicknesses
- Butterfly cover sheet, side rolling or EASYTARP™
- A great choice of colors and customization
- Standard or hydraulic back door
- Progressivity of the side wall thicknesses over the length

THE REINFORCED MOVING FLOOR ! ALUMINIUM MOBILE FLOOR UP TO 96 M³

- **Side walls** with various thicknesses to meet your loading requirements
- **Integral hybrid reinforced chassis** (steel & aluminium)
- **Trapezoidal body** for an optimized volume
- **Reinforced floor** suitable for waste transport
- **Higher safety** thanks to the unloading operation without tipping

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Smooth or ribbed floor profiles with various thicknesses
- Butterfly cover sheet, side rolling or EASYTARP
- Steel rear bumper
- Standard or hydraulic back door
- Progressivity of the side wall thicknesses over the length

Have a look at our numerous options on www.benalu.com

Type : **Mobile floor**

Chassis : **Hybrid aluminium & steel**

Body : **Aluminium**

Goods : **Industrial and household waste, Euro pallet, small and middle-sized scrap, ...**

Useful length : **13,42 m**

Weight : **From 7300 kg**

**INNOVATION
BENALU**

Type : Tipper
 Chassis : Aluminium
 Body : Steel
 Utilization : Industrial and household waste,
 big scrap
 Useful length : From 10,60 m up to 12,40 m
 Useful height : 2,30 m
 Weight : From 8450 kg

AN OPTIMIZED ROBUSTNESS FOR SCRAP TRANSPORT !
 STEEL TIPPER FROM 57 UP TO 67 M³

- **HB 450 THLE steel body** with high resistance to shocks and abrasion
- **Side walls** with central ribs assembled by laser welding
- **Straight aluminium chassis** for an unequalled payload
- **Barn type door without upper cross member** for safe unloading operation

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Body reinforcement (floor and side walls)
- A great choice of colors and customization
- Back door with pneumatic unlocking device
- cover sheet system with a net design or side rolling
- Additional equipment
- ...

Have a look at our numerous options on www.benalu.com

Type : **Tipper**

Chassis : **Aluminium**

Body : **Aluminium**

Utilization : **Industrial and household waste, scrap, ...**

Body design : **Trapezoidal**

Useful length : **From 10,60 m up to 11,30 m**

Weight : **From 6800 kg**

THE COMBINATION BETWEEN ROBUSTNESS AND PAYLOAD !
REINFORCED TIPPER FROM 64 UP TO 68 M³

- **Highly reinforced body** : Side wall rib doubling on last third of the body
- **Trapezoidal body** for an optimized volume
- **Aluminium step-frame chassis** for an optimized volume and a higher stability
- **Sloped floor** for an easier outflow

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- side wall rib doubling on the last third or on the full length!
- Straight or sloped front wall according to your needs
- EASYTARP™ or side rolling cover sheet system
- A great choice of colors and customization
- Back doors according to your needs
- Many profile thicknesses
- ...

PULVER SILO

POWDERLINER II

Type : Tank

Chassis : Aluminium

Vessel : Aluminium

Utilization : Food, minerals, chemicals

Total height : 4 m

Weight : From 6000 kg

THE TIPPING POWDER SILO !

POWDER SILO FROM 47 UP TO 65m³

- **Wider main beam distance and "J" structure** for the best stability on the market
- **Straight rear part** that offers a gain of volume, of ground clearance and an improvement of the overhang
- **XL welded** and bolted supports to the chassis improve overall stability
- **Diameter of tank at 2550mm:** Optimized volume!

OPTIONS DESIGNED FOR AN OPTIMIZED UTILIZATION !

- Tipping aggregate, tool box and hoses carriers
- Specific wave breakers for the transport of liquid fertilizers
- A great choice of colors and customizing
- Specific equipments for sugar transport
- ...

Homologation for intermodal
international transport

OUR SPECIFIC CONTAINERS FOR BULK TRANSPORT CONTAINER FROM 20' UP TO 40'+

- **Fitting with your needs** : Swap body with cover sheet system or closed container
- **Ribbed side walls** : Distortion minimization
- **Optimized weight** by assembling simplification
- **Enhanced rigidity via reinforcement points**

OPTIONS STUDIED FOR AN OPTIMIZED UTILIZATION !

- Upper part with side rolling cover sheet system
- Reinforcements for stacking device
- Suitable with various types of handling huckepack or spreader
- Waterproofness device
- ...

Type : Container chassis
 Chassis : Aluminium
 Suitability : 20', 30', 40', 40'+
 Utilization : Intermodal
**Homologation for intermodal
 international transport**

STABILITY AND PAYLOAD ! CONTAINER CHASSIS TIPPING OR NON-TIPPING

- **Semi-trailer equipped with all the knowledge and know-how of Benalu**
- **100% straight aluminium chassis** with an outstanding longevity
- **Main beam distance especially studied** for stability optimization
- **Finish and equipment especially well designed**

OPTIONS STUDIED FOR AN OPTIMIZED UTILIZATION !

- Landing legs, axles, rims, tires according to customer request
- Walkway implemented into the chassis.
- Specific design for mobile silo
- Tipping device with bulkhead, hydraulic ram and walkway
- Additional equipment : tool box, working light, etc...
