TECHNICAL SPECIFICATIONS

Round body

Round body in 2 or 3-sheet version designed for 3 and 4-axle chassis.

Large angle

Large tipping angle

Hydraulic door

Hydraulic door with large aperture

Facetted body

Facetted body in high tensile steel HB 500 providing a high resistance to abrasion

Lower centre of gravity

Especially designed sub frame to optimize the body height and improve the centre of gravity!

OPTIONS & VARIANTES

2 or 3-sheet versions

Insulation

Longitudinal cover sheet system

Asphalt hatch

Various thicknesses
